MEASURING COAT SIZE

The coat size is the same as the chest measurement. For comfort fit add 1 inch. See below for instructions on measuring the chest. Is also the usual size of the jacket you wear.

MEASURING COAT LENGTH

Standing upright, measure from the upper end of the shoulder where it joins the next to the length desired.

You can also double check this measurement on one of your own jackets. Measure from the collar to the bottom of your jacket as in the picture. The two measurements should be the same.

Enter Size Here _____

MEASURING SHOULDERS

From the back and standing straight up, measure from shoulder seam to shoulder seam.

Enter Size Here _____

MEASURING CHEST

Measure all the way around the chest, directly under the armpits with arms relaxed.

Enter Size Here _____

MEASURING THE BELLY

Measure around the widest part of your stomach.

Enter Size Here _____

MEASURING SLEEVE

Measure from the shoulder seam to the bottom of the sleeve cuff.
